NYC Parks is the steward of over 30,000 acres of land — 14 percent of New York City — including more than 5,000 individual properties ranging from Coney Island Beach and Central Park to community gardens and Greenstreets. We look after 600,000 street trees, and two million more in parks.

The Division of Environment and Planning aims to protect, restore, and expand New York City's green spaces and natural areas to maximize their benefits for environmental and community health and resilience. The Natural Resources Group within Environment and Planning manages over 12,000 acres of natural areas across the five boroughs, including forests, grasslands, and wetlands, and has secured tens of millions of dollars of grant from state, federal and private sources over the past decades to fund restoration and management across these ecosystems.

Employees who work for 6 months or longer are eligible for healthcare benefits. All seasonal employees earn sick and annual leave. All employees receive free membership to our recreation centers.
